

WINKLES are said to be pretty general. A cure for them is: "Don't worry."

## HOME EDITION

### LIGHT VOTE FIFTH KANSAS PRIMARY TODAY

Cooler Weather May Increase  
Early Estimates.

Heated Local Contests Will  
Stimulate Balloting.

BIG FIGHT IN SIXTH DISTRICT

Max Anderson and Otis Benton  
In Bitter Contest.

Voting for State, Congressional,  
District, County, Township.

Kansas is today holding her fifth state-wide primary, for the selection of candidates for state, congressional, district, county and township offices. Voting started this morning in nearly 2,500 wards and voting precincts, with early returns indicating an unusually light vote. Improved weather conditions gave hope for an increase in the early estimate of the total vote of the state. Returns from over the state, however, indicate that even in the face of heated local contests in many counties the vote of the state may not exceed 150,000 of a possible 900,000.

As a result of today's primaries, the state house was today almost deserted. Numerous state officials, clerks and department heads left Monday and Monday night for their home towns, and today the stenographers are in charge of affairs in most state offices. Returns tonight will come to Topeka slowly. Interest in local fights will in many localities result in a first count of the county vote. Then, when convenient, the state votes will be tallied up and the returns sent to Topeka. Except in cases of a landslide to individual candidates, results from several state contests may be in doubt until some time Wednesday.

Returns Will Be Slow.

Persons interested in the state-wide returns must wait patiently while the single election board makes up the tally sheets and sends in the returns. The same election board which will today care for the voters, must tonight count the votes. The returns will be sent to the state house in the morning. Many of these boards are composed of men and women old in years and with defective sight and hearing. When the state legislature created the double election board, it did not provide specifically for operation of the system in the primaries. Under a ruling of the attorney general's office, the double election board will work only in November. Single boards must stay on the job until the finish in today's primaries.

Early returns today indicated keen interest in fights in a number of districts. A heavy vote is expected in the Sixth district as the result of the long, bitter fight of Max Anderson and Otis L. Benton for a Republican congressional nomination. Similar conditions exist in the Fourth district, where Clyde W. Cook is fighting for a Republican nomination. H. J. Hodgson and W. H. Mathews are fighting for the nomination.

Big Vote in Wyandotte.

A fight between U. S. Guyer and E. C. Little for the Second district nomination, today brought out a big vote in Wyandotte county. Both men live in Kansas City, Kansas.

In Osage county, the fight to defeat James Pringle for the senatorial nomination is the chief matter of concern and has aroused the voters to the point of forgetting the heated weather and going to the polls. Pringle was formerly speaker of the house.

The Wyman-Plumb senatorial fight in Lyon, the Carlsbad contest in Clay, and the Carroll-Cotton senatorial contest in Wabasha county will add to the heated weather in the respective counties. Excitement in the home counties of the candidates, there is little interest or concern in the state contests. Clyde W. Cook, assistant state treasurer and candidate for nomination for treasurer, left Monday night for his home in Kansas City, Kan. E. C. Little, assistant auditor and candidate for promotion, has gone to his home in Howard, while J. T. Dotkin, secretary of state, left Monday night for his home in Galena. Justice Silas Porter votes today in Kansas City. W. E. Davis, state auditor, votes in Dodge City. Chief Justice W. A. Johnson votes in Minneapolis. Earl Akers, state treasurer, votes in Stafford, while S. M. Brewster, attorney general, votes in Troy.

Cooler weather today promised aid in bringing out the voters. But the decided lack of interest in other than local contests, is expected to insure a light vote. Even a personal appeal by Governor Capper has failed to cause the voters. Political observers predict that one-sixth of the voters of the state will today express a preference for state candidates. That would mean vote of 150,000.

### ELECTION BULLETINS!

The good people of Topeka tonight will not be disappointed in their customary sojourn for the election returns. As usual, the state house will maintain service at the popular Eighth and Kansas avenue corner.

Returns from every precinct in the city will be posted in totals on a large bulletin board to be erected in front of the building on the Kansas avenue side. The morning contests, as well as state contests, will be bulletined here.

From an upstairs window, Charles Crowe, the man whose voice has penetrated Kansas avenue from the State Journal in years gone by, will yell returns in detail.

The polls close at 7 o'clock and the State Journal corps will be turned loose to gather returns shortly after. It probably will be 8 o'clock before figures of any consequence will be available.

### FIND CONSPIRACY?

Publishers Charge Plot by  
Paper Manufacturers.

Editors Serve Notice of Real  
War—Federal Probe On.

BY ROBERT J. BENDER.

Washington, Aug. 1.—Notice of a real war on print paper manufacturers was given by newspaper publishers of the United States today at an open hearing before the federal trade commission. The hearing is the first of several to be held to determine if possible the underlying causes and a possible remedy for the tremendous increases in the cost of print paper to publishers.

Representatives of the American Newspaper Publishers' association, the National Editorial association, the New Jersey Publishers' association, the Pennsylvania State Editorial association, Pennsylvania Publishers' association, and the Newspaper Manufacturers' association, were present.

Price Jumps 100 Per Cent.

That the American Newspaper Publishers' association is preparing a "war chest" to fight the manufacturers and is compiling data tending to show that collusion and conspiracy exist among the manufacturers to keep print paper prices up, was declared by Vice President F. P. Glass, of the association, first speaker at the hearing. Glass said general prices on contracts have increased 25 to 30 per cent and that publishers desiring extra paper have been compelled to pay as high as fifty to one hundred per cent more.

"The situation facing the newspapers today is very threatening," said Glass. "We find many evidences on the part of manufacturers of concerted action. We are trying to gather facts sustaining evidence of collusion and conspiracy. We have not the legal evidence today. We are morally certain it exists. We expect to have the proof within sixty days and possibly sooner."

Mills Making It Cheaper.

"Certain mills," said Glass, "are making paper cheaper than ever before."

J. H. Zerby, representing the National Editorial association, gave the first testimony to indicate collusion between mill owners.

"I was cut off from my paper supply after a minor infraction of rules," he said. "I wrote thirty or forty letters to the mills, and they refused to supply me with paper. I received three replies asking for specifications. After furnishing these, one wrote me: 'We might take care of you for a little while, and another said he'd tried to get my contract before and now he couldn't do anything for me. All three asked me why I didn't go back to my original dealer.'"

### WILL BE HOT AGAIN

Slightly Cooler Weather Is Only  
Temporary, Says Weather Observer.

Cooler weather will be in order in Kansas tonight, but Wednesday will see a return of the high temperature and the heat wave. The forecast calls for generally fair weather tonight and Wednesday with higher temperatures. Single showers are expected in the western and northern parts of the state. No rain fell in any part of the state last night and no precipitation is in sight. The minimum temperature at Topeka was 74 degrees at 5:30 o'clock, but after that the mercury did not rise rapidly. The reading at 9 o'clock was 80 degrees, and at 10 o'clock it was 82 degrees. The weather observer, announced that the mercury would not go above 90 degrees today.

Temperature readings furnished by the weather bureau:

7 o'clock	76	11 o'clock	82
8 o'clock	77	12 o'clock	83
9 o'clock	78	1 o'clock	84
10 o'clock	80	2 o'clock	81

Temperatures today averaged 4.9 degrees above normal. The wind is blowing at the rate of fifteen miles an hour from the east. Tomorrow, according to the forecast, the weather will be clear and the mercury will rise to 95 or 98 degrees.

The highest temperature yesterday was 98 degrees at 4 o'clock. This was 4 degrees below the high mark of 102 degrees, established in 1890. The low record, 68 degrees, occurred in 1898.

### PUBLISHERS TESTIFY

Federal Inquiry Into Increased Cost  
of Paper, in Session.

Washington, Aug. 1.—Newspaper publishers and printers were given a hearing today by the federal trade commission on record for this date is 100 percent increase in the price of new print paper. Those who appeared included John Clyde Oswald, representing New York publishers; J. H. Zerby, chairman of a committee from the National Editorial association; Robert L. McLean, spokesman of Philadelphia publishers, and representatives of the Pittsburgh Daily Courier, the St. Louis Post-Dispatch and the St. Paul Pioneer-Press.

An open hearing with the publishers was arranged by the commission for two purposes: to get any ideas publishers may have as to the cause and justice of the increased price of paper; and to develop the first report of the commission. The completion of its investigation together with its formal report, is expected by October 1.

### HUGHES TO OPEN BIG CAMPAIGN IN TOPEKA SEPT. 2

Presidential Nominee Will De-  
liver a Speech Here.

Plans for the Largest Political  
Meeting in Years.

ON THE STATE HOUSE GROUNDS

Open Air Celebration If Weather  
Will Permit.

Judge May Visit All Cities In-  
vaded by Wilson.

Charles Evans Hughes, Republican nominee for president, will open the campaign in Kansas with an hour's speech in Topeka Saturday afternoon, September 2. He will deliver one and possibly two speeches in this state. It is possible he may make a speech in Salina. The Topeka meeting, however, will be the official opening of the campaign and plans are being laid for one of the biggest political meetings held in Kansas in years.

Notice of the Hughes meeting was sent to Topeka today, in a telegram by Fred E. Stanley, Republican national committee man, to Charles Seaton, secretary to Governor Capper and provisional chairman of the state committee. Judge Hughes will come to Topeka on a special train over the Union Pacific. He will speak here at 3 o'clock in the afternoon.

It is probable the Hughes meeting will be held on the state house grounds, unless weather conditions require an indoor meeting. In that event the meeting will be held in the auditorium. Hundreds of Kansas Republicans are expected in Topeka for the meeting, and an outdoor meeting will be held if possible. With a Saturday day, it is believed the Hughes meeting will draw heavily from over the state.

Will Come on a Special.

Governor Capper will probably introduce Judge Hughes. The former United States supreme court justice will come to Topeka on a special train from Denver, where he speaks the night of September 1. In event the Hughes meeting is arranged, he will be accompanied by his wife and a number of thirty or forty minutes. A number of Kansas politicians will meet the Hughes special on Saturday morning. The Hughes special will stop at Salina and Topeka. It is probable that a delegation will meet the presidential nominee in Denver.

The Hughes meeting will be the official opening of the campaign in Kansas, said Seaton today. "We are planning one of the biggest meetings held in Kansas in years and I believe Republicans from every section of the state will be here. Since the meeting is arranged for Saturday, there is no doubt that hundreds of farmers and business men will drive to Topeka from surrounding counties."

Will Be Here on a Hour.

Special trains may be arranged for the Hughes meeting. Mr. Liebling told Assistant State Attorney Rader that his life had been threatened because he had told the grand jury that he knew of the methods of the labor union representatives.

The bombs were placed near the front door of the building. Mr. Liebling told Assistant State Attorney Rader that his life had been threatened because he had told the grand jury that he knew of the methods of the labor union representatives.

It is probable that the Hughes western itinerary will include nearly all of the cities visited by President Wilson in February. Both Topeka and Kansas City were visited by the president during his recent western tour.

### JUST BEFORE THEY TOLD HIM LAST NIGHT

(Copyright, 1916, by John T. McQuinn.)

### BOMB NEWSPAPER EXIT HEAT WAVE DUCK MEAT NOW

Publisher as Witness Helped  
Bare Labor Conspiracy.

Explosion Throws Editor and  
Family From Their Beds.

Chicago, Aug. 1.—Two bombs, believed to have been made of dynamite, were exploded this morning under the building of the Jewish Daily Press, whose publisher, A. M. Liebling, was charged with conspiracy here.

Under a cloud bank that gave promise of light, local rain storms with a refreshing breeze from the northeast the thermometer stood at 75 degrees at 10:30 o'clock this morning, after yesterday's maximum of 95 which caused four deaths in this city.

The clouds, according to the forecaster, extended over northern Missouri and northeastern Kansas, with general rains falling in Nebraska and some parts of Iowa.

All Night Rain.

Lincoln, Neb., Aug. 1.—An all night rain over the eastern half of Nebraska brought much needed relief to the corn which was beginning to suffer seriously from the drought. In some sections there has been some firing and the corn is badly damaged. The heavy rain will save many fields which were given up as lost.

North Wind Hits Chicago.

Chicago, Aug. 1.—After revelling through a night of perfect cool breezes following a scorching twenty days of heat, Chicago today prepared for another hot day.

Last night the lake was so rough that all beaches were closed at 6 o'clock. Some beaches were closed at 6 o'clock. Some beaches were closed at 6 o'clock.

Cool Succeds Heat in N. Y.

New York, Aug. 1.—The heat wave which struck New York yesterday, causing five deaths and setting 33 as July's heat record, had abated today. Temperature at 10 o'clock was 75 and the forecaster said it would be cooler tonight.

Iowa Got a Rain.

Des Moines, Aug. 1.—Rain, which was general over the state except in the extreme eastern part last night and early today, saved the Iowa corn crop from damage which in a few days more would have caused a loss of millions of dollars to Iowa farmers, according to a statement issued here today by the weather bureau.

Half to Inch of Rain in Iowa.

Des Moines, Ia., Aug. 1.—A half inch of rainfall was reported in six Iowa cities and towns today and at Cedar Rapids an inch has fallen, indicating the breaking of the drought and the collapse of the heat wave which threatened the corn crop and seriously injured late potatoes. The rainfall in Iowa during July was 2.30 inches below normal.

HIS HEAD CUT OFF

An Unknown Man Killed by Rock  
Island Train at Valencia.

Valencia today by Rock Island train No. 35. He was struck by the engine, according to informants to Iowa farmers, according to a statement issued here today by the weather bureau.

Half to Inch of Rain in Iowa.

Des Moines, Ia., Aug. 1.—A half inch of rainfall was reported in six Iowa cities and towns today and at Cedar Rapids an inch has fallen, indicating the breaking of the drought and the collapse of the heat wave which threatened the corn crop and seriously injured late potatoes. The rainfall in Iowa during July was 2.30 inches below normal.

WHY GERMANY DELAYS

Old Treaty with Italy Considered of  
Great Value to Germans.

Paris, Aug. 1.—The only reason which has so far prevented Germany from declaring war on Italy, says the Petit Parisien, is a commercial treaty signed by the two countries in 1891 and renewed in 1904.

This treaty subordinated Italy to Germany economically, according to the paper, and it was considered of great importance by Germany.

The Parisien says that it understands Italy has now denounced this treaty and thereby left the way clear for a declaration of hostilities.

Osteopaths in Kansas City.

Kansas City, Aug. 1.—With sectional study conferences and clinics held in the hospitals of the city, the annual convention of the American Osteopathic association held its first meeting here yesterday. Preliminary sessions here today. In the absence of Dr. O. J. Snyder of Philadelphia, president of the association, the opening address was made by Dr. Arthur J. Flack, also of Philadelphia. About 3,000 osteopaths are in attendance, it was announced, although all of them are not members of the association.

### LOOKS LIKE BIG VOTE IN TOPEKA AND SHAWNEE

Morning Balloting Largest in  
Years in This City.

Registration, Too, Is Greatest  
In History Here.

NO TROUBLE AT THE POLLS

City Clerk Has Not Heard of a  
Single Challenge.

Count Will Be Slow—Likewise  
Returns Tonight.

Today's vote will reach a greater total than in any previous primary in Topeka and Shawnee county if there is no slackening in the vote later in the day. Judges and clerks over the city said today that the number of votes cast during the morning hours was greater than at any previous primary election at which they had served.

The registration in Topeka is greater than ever before, the temperature laded out by the weather department extends an invitation to women to get out of doors, and the county candidates are using every facility for getting voters to the polls. Everything points to an exceptionally heavy vote. The total registration in Topeka is 23,000.

The polls opened over the city at 6 o'clock this morning and will remain open until 7 o'clock this evening. Under this arrangement voters have an opportunity to cast their ballots before their day's work, without taking time off.

In the country the polls did not open until 7 o'clock and they will close at 8 o'clock, an hour earlier than in the city. There was no rain in Shawnee county during the night to cheer the farmers but the cooler weather today is promising and candidates believe it will have a tendency to increase the rural vote.

Nothing has occurred to mar the election in Topeka. There has been no trouble at any of the polls and no word has been received at the office of the county clerk of any challenges. There was much early voting. Men voted on their way to work and many women, fearing the cool weather, cast their ballots with their husbands. In the second precinct of the Sixth ward 14 ballots had been cast at 8 o'clock.

A House Divided.

A peculiar situation developed early today in the south part of the city. Mr. and Mrs. P. G. Devon live at 1423 Van Bure. The line dividing the second precinct of the Third ward from the second precinct of the Fifth ward runs through their house. Mr. and Mrs. Devon and her husband registered at different times and Mrs. Devon registered at the second of the Fifth. Today they thought they would cast their ballots with their husbands. One of them called Commissioner W. L. Porter by telephone and the matter was looked up. That question came up in the house that was necessary for the husband to go to another polling place and cast his vote.

Because of the numerous candidates on the Republican ticket, it is expected that the counting tonight will be slow and a complete recount may be necessary. County candidates began making the rounds of the polls as soon as they opened this morning. One automobile has followed another from one polling place to another all day. Some of the candidates have gone out into the country to see the voters. Mr. and Mrs. L. J. Lattimore, former Topeka manager, who is with the Lincoln club, is looking good and says he is feeling fine. Lattie has been playing a steady, consistent game since he went to the Nebraska capital.

Today's Line Up.

Lincoln—  
Carlsile, H.  
Williams, C.  
Goodwin, B.  
Engle, R.  
Lattimore, B.  
Hunter, B.  
DeFato, B.  
Morse, B.  
Johnson, C.  
Halla, P.

Loaded to the muzzle with confidence as a result of their clean sweep at Wichita, Manager Duckey Holmes and his Duckings were positive they would be able to get off on the right foot in the opening of the series here this afternoon. However, the Savages also are playing behind a clean sweep, and the law of averages entitles them to as much confidence as the victors.

Jack Halla was booked to pitch for Lincoln and Doyle was to be his opposition. The Savage lineup was unchanged.

R. J. Lattimore, former Topeka manager, who is with the Lincoln club, is looking good and says he is feeling fine. Lattie has been playing a steady, consistent game since he went to the Nebraska capital.

North Wind Hits Chicago.

Chicago, Aug. 1.—After revelling through a night of perfect cool breezes following a scorching twenty days of heat, Chicago today prepared for another hot day.

Last night the lake was so rough that all beaches were closed at 6 o'clock. Some beaches were closed at 6 o'clock. Some beaches were closed at 6 o'clock.

Cool Succeds Heat in N. Y.

New York, Aug. 1.—The heat wave which struck New York yesterday, causing five deaths and setting 33 as July's heat record, had abated today. Temperature at 10 o'clock was 75 and the forecaster said it would be cooler tonight.

### HUGHES TO TOPEKA

Candidate for President Will  
Open Campaign Here Sept. 2.

It was announced from the office of Governor Capper at noon today that Charles E. Hughes, Republican candidate for president, will be in Topeka for one hour Saturday, September 2.

If weather conditions permit it will be arranged to have the former supreme court justice speak from the state house steps to a great gathering of Kansans expected in Topeka for the event. Otherwise the speech will be heard at the auditorium.

The Hughes speech in Topeka will be the grand opening of the Republican campaign in this state. All the old party leaders of Kansas will come to Topeka on that day.

The special train carrying Judge Hughes will arrive over the Union Pacific at 2 o'clock. The train leaves St. Paul at 10 o'clock. The candidate will be en route to Denver.

WEATHER FORECAST for Kansas:  
Generally late tonight and  
Wednesday; slightly warmer in the  
west and northern portions of the  
state Wednesday.

### TWO CENTS

### HUGHES SPEECH FINDS PLACE IN HEART OF C.O.P.

Keynote Struck Chord of Har-  
mony for All Factions.

4,000 Persons Brave Tempera-  
ture to Hear Him.

YES, HE ACCEPTS NOMINATION

Evades No Issue in Launching  
Republican Drive.

Mexican Muddle Big Issue—A  
Vigorous Campaigner.

BY PERRY ARNOLD.

New York, Aug. 1.—Charles Evans Hughes' "keynote" for the coming campaign pleased all Republicans today. Party chiefs who assembled to hear the former justice formally accept the nomination last night, spent today in praising the striking sentences with which the candidate outlined the issues on which the G. O. P. is to start election proceedings against Woodrow Wilson and the Democratic majority in the senate and house.

The fact that 4,000 men and women sat for nearly three hours in sweltering, stifling heat to hear the nominee break another one of his famous silences in the meeting at Carnegie hall was looked upon by Republicans today as auguring well for success in November. Moreover, the same stately, sweating auditors had enough enthusiasm left at the end of that session in the close air of the hall to cheer Hughes vociferously. They would have liked to have heard something from Colonel Roosevelt, but the former Moose, playing second fiddle to a political gathering for the first time in a great many years, hustled out of the hall.

Effective Campaigner.

Hughes' speech pleased today because in the view of his friends he supported his harmony plea with a selection of the issues for the campaign. The second line of his famous stand patters, Republican liberals and Progressives. The "old liners" were pleased with a ringing protection declaration. Hughes' speech was full of administrative efficiency sections, in his upbraiding of the Wilson administration. Hughes' speech was full of administrative efficiency sections, in his upbraiding of the Wilson administration. Hughes' speech was full of administrative efficiency sections, in his upbraiding of the Wilson administration.

Publicans and Democrats alike today were convinced that Hughes' principal issue in his fight against Wilson will be the Mexican situation. In Governor Campaign 8 Years Ago. Hughes' speech was full of administrative efficiency sections, in his upbraiding of the Wilson administration. Hughes' speech was full of administrative efficiency sections, in his upbraiding of the Wilson administration. Hughes' speech was full of administrative efficiency sections, in his upbraiding of the Wilson administration.

Mr. Hughes' Speech.

The text of Mr. Hughes' speech follows in full: Senator Harding, Members of the Senate, American Committee and Fellow Citizens:

This occasion is more than a mere ceremony of notification. We are not here to issue in formal expressions of opinion. We are here to state in a plain and direct manner our faith, our purpose and our pledge. This representative gathering is a happy opportunity and we know the strength of re-union. It means that the party of Lincoln is restored, alert, effectively re-organized, and ready for a common perception of paramount national needs. It means that we are neither deceived nor benumbed by abnormal conditions. We know that we are in a critical period, perhaps more critical than any period since the Civil war. We need a dominant sense of national unity; the exercise of our best constructive powers; the vigor and resourcefulness of a quickened America. We desire that the Republican party as a great liberal party shall be the agency of national achievement, the organ of the effective expression of dominant American ideas. We know that we are in a critical period, perhaps more critical than any period since the Civil war. We need a dominant sense of national unity; the exercise of our best constructive powers; the vigor and resourcefulness of a quickened America. We desire that the Republican party as a great liberal party shall be the agency of national achievement, the organ of the effective expression of dominant American ideas. We know that we are in a critical period, perhaps more critical than any period since the Civil war. We need a dominant sense of national unity; the exercise of our best constructive powers; the vigor and resourcefulness of a quickened America. We desire that the Republican party as a great liberal party shall be the agency of national achievement, the organ of the effective expression of dominant American ideas. We know that we are in a critical period, perhaps more critical than any period since the Civil war. We need a dominant sense of national unity; the exercise of our best constructive powers; the vigor and resourcefulness of a quickened America. We desire that the Republican party as a great liberal party shall be the agency of national achievement, the organ of the effective expression of dominant American ideas. We know that we are in a critical period, perhaps more critical than any period since the Civil war. We need a dominant sense of national unity; the exercise of our best constructive powers; the vigor and resourcefulness of a quickened America. We desire that the Republican party as a great liberal party shall be the agency of national achievement, the organ of the effective expression of dominant American ideas. We know that we are in a critical period, perhaps more critical than any period since the Civil war. We need a dominant sense of national unity; the exercise of our best constructive powers; the vigor and resourcefulness of a quickened America. We desire that the Republican party as a great liberal party shall be the agency of national achievement, the organ of the effective expression of dominant American ideas. We know that we are in a critical period, perhaps more critical than any period since the Civil war. We need a dominant sense of national unity;
